

PETTINICE RTR ICING — RED

OVERVIEW

Pettinice RTR (ready-to-roll) Icing is a smooth and resilient fondant icing. With easy handling properties, no cracking and subtle vanilla flavour, the versatile icing dries matte and holds its shape for covering cakes or cookies, or moulding figurines and toppers.

The icing only needs to be kneaded lightly before rolling out to the desired size and thickness.

As well as standard white, the Pettinice range comes in a wide range of colours.

INGREDIENTS

Sugar, Glucose, Water, Hydrogenated vegetable oil, Maize Starch, Flavour, Stabiliser (413, 466), Colour (124), Modified maize starch (1422), Preservative (202), Emulsifiers (322, 492), Acidity regulator (260), Antioxidant (307b)

ADDITIONAL INFORMATION

Product Information:

PETTINICE RTR (ready-to-roll) ICING RED was specially developed to meet the demand for a reliable, consistent covering for special occasion cakes. It is extremely smooth and handles perfectly so that cakes can be covered without blemish.

PETTINICE RTR ICING RED is manufactured for use directly from the sachet and is best stored at between 20?25°C to bring it to the ideal consistency for working. The icing should be kneaded lightly before rolling out to the desired size and thickness.

When using PETTINICE RTR ICING RED, the work bench should be lightly dusted with sieved icing sugar. Cakes should be washed over with a boiled sugar syrup or a quality alcohol (cream sherry) to give good adhesion of the icing to the cake surface.

PETTINICE RTR ICING RED is the perfect consistency for using to make decorations for cakes.

PETTINICE RTR ICING is also available in WHITE, BLACK, IVORY, GREEN, ALMOND and CHOCOLATE variants.

Note: The sachets should be sealed after use to retain the quality of the icing remaining in them.
